THE MUZZLE AND HYDROPHORIA .- A notable decrease in the number of deaths from hydrophobia is observed by the Registrar-General. The deaths from this disease had been thirty in 1889, and had averaged The Canadian Pacific Railway steamship twenty-four annually in the three years Empress of Japan left Vancouver for [1887.88-89; but there were only eight in Japan and Hongkong on the 14th 1890, and fewer than in any year since Feb., and is due at Yokohama on 28th 1868. This decrease was coincident with, and doubtlessly due to, a similar decline in canine rabies ; the number of dogs returned to the Board of Agriculture as afflicted by this disease having fallen from B12 in 1889, and an average of 230 in the three years 1887-88-89; to 129 in 1890. It seems impossible, the Registrar-General says, not to associate this remarkable decline with the application of the Muzzling Order by the Board of Agriculture, from January 1, 1890; to those counties in which rables was known to have been prevalent. These were the counties in which hydrophobia has been most common—namely, the groups of counties of which London and Lancashire

are respectively the centres. ALLEGED FATAL BOXING BOUT. -- AB EUGlishman named Charles William Tatton, died in the General Hospital yesterday afternoon, says the Straits Times of the .11th inst., from injury to the brain. It would appear that on the occasion of the boxing competition to the Town Hall or Boxing Night, under the leadership of Profestor Bendoff, the deceased boxed with Mr Watson, a planter in Selangor; and it is alleged that in the course of the bout deceased received injuries which terminated fatally yesterday. It is said that Col. Ellis of the 58th Regt. was referee. An inquest was opened yesterday and it was adjourned till next Thursday, the 18th instant. Col. Ellis is to be called as a witness; and it is possible that Mr. Watson may be called to give evidence. There is believed to be no naturally risked in boxing. And it is, of course, conceivable that the cause may be

other than boxing.

Sporting men at Buda-Peath are looking forward with lively interest to the devision of the Jockey Clubs of Paris and Vienna with regard to a betting dispute which was recently referred to their arbitration by the parties concerned. The question to be settled is, if a horse is debarred by accident from running in a race. are previous bets on the result, so far as that particular borse is conthey pancelled? Opinions are divided considerable amount of discussion racing circles. Two Pulish noblemen, Count Joseph Potocky and Count Baveroceky, made a bet of 20,000 floring with some twenty Hungarian gentlemen that sion Steam Launch Dayspring will call Codi, a favourite horse belonging to alongside vessels hoisting Code Penant C Count Potocky, would win a certain race which has just been fun at a meeting. Count Potocky and Count Bayoroosky claim that the bet is cancelled, but, on the other hand, the Hungarian gentlemen maintain that it is still valid, and they ask for settlement. The causes of the accident will be thoroughly of Mr. Donald Fraser (who has been the

The dead heat between Vagrant and Reciprocation came as a surprise, as many thought Vegrant should have won semewhat easily. THIS WILL SETTLE THE QUESTION. I don't believe there is a word of truth in it. That's the way certain foolish people talk when they hear of anything unusual, or outside the limits of their own observation or experience. They are of the sort who laughed at Stephenson when he introduced the railway, and at Morse when he said that we could communicate by means of electricity. You they don't laugh at those things now. Some months ago the case of Mrs Mary Cuddy was first published. The great public OVERLAND RAILWAYS, AND TOUGHING accepted the facts, as they had every reason to do. Here is her answer! She repeats what sh at the first said, and puts a quietus on all who called her words in question. It will be ob-

My business was so argent that I was compelled to be at work, otherwise I would have laid in bed, so weak had I become. With the weakness and loss of appetite there were other feelings and signs that were bad and alarmed me greatly. Among them were these times a sold clammy perspiration, point and soles in the sides, the clast and back, headache, a kind of yind or gas coming up into my throat and mouth that was so sour and sickening I could scarcely bear it. for no words can describe what my sufferings were during all those long years. I never expected being well again in this world. Seigel's Syrup saved my life and I desire other sufferers to know of what did so much for me. I will gladly enswer inquines. And I make this solemn declaration bons. cientionaly believing the same to be true, by virtue of the provisions of the Statutory Declaration Act (Will. IV., o. 63.) (Signed) MARY CUDDY.
